

DOUBLE HUNG	CASEMENT	GARDEN
 <p>Our double hung window is the most universal of all types. It can be used in most any application. Constructed so that both the upper and lower sash can move independently, and virtually maintenance free, cleaning can all be done from the inside with the easy tilt in top and bottom sash. We provide a standard half screen that can be moved to either the top or bottom position to allow adjustable ventilation. No more storm windows.</p>	 <p>Both casement and awning windows provide the home owner with a combination of versatility and a unique look. The RBS Pro casement comes standard with dual arm operators, multi point locking hardware with three keepers hidden in the frame, optional operator fold down handle and a full heavy duty extruded full screen. Best of all, casements offer a wide variety of design options to add curb appeal to any home.</p>	 <p>Whether you have a green thumb or not, a garden window offers you the ability to grow and enjoy the endless offerings of nature right in your kitchen or other room. How about fresh herbs in the winter? We offer an exclusive hardware design that keeps the window operation and locks within easy reach, so you and your plants can enjoy the outside when the temperatures and weather permit.</p>
BAYS & BOWS	SLIDER	EZ TILT
 <p>A bay or bow window will say a lot about the quality and beauty of your home, not to mention the added value.</p> <p>They can be a focal point to any room adding light and a place to add plants or other cherished items. It is a great place to just let the outside</p>	 <p>Sliders come in a number of configurations. Your dealer will help you decide the best combination to best fit your needs. Solid brass rollers will give you years of smooth carefree operation and make moving large glass panes effortless. Use sliders to add a focal point both inside and out and a lot of additional sun light. Heavy duty extruded half screens come standard.</p>	 <p>The EZ Tilt is a unique design that few window manufacturers offer. It is a combination of a slider and a casement that opens to the inside of the home. This feature allows you to clean the windows from inside the home. You will gain an almost unobstructed view and maximum ventilation. Because of its ability to open almost completely it also makes for an excellent emergency escape.</p>
FIXED LIGHTS	PATIO DOORS	SHAPES
 <p>With basically unlimited styles of design to choose from you can add an energy efficient source of outside light to most any room.</p> <p>You can also accent your sliders and double hung windows to make the room and outside appearance unique and distinctive.</p>	 <p>Our low-maintenance sliding patio doors provide you with numerous features. Resistant to wind, rain and air infiltration our doors offer an unobstructed view of the outside. Built of heavy duty overlapping sash and frame, with a full one inch of tempered glass and tandem rollers, your new doors will require minimal maintenance for many years to come.</p>	 <p>The RBS Pro is available in a wide variety of shapes—half rounds, ovals, triangles, and more, offering unique design options inside and out.</p> <p>Add fixed lights or pair with operable windows to create standout architectural features and bring in natural light.</p>

**TWO GREAT COMPANIES PARTNERED
TO BRING YOU ONE AMAZING WINDOW**

Richards Building Supply is a family-owned, service-minded, solution-centered wholesale distributor of exterior building products. Our strategic growth initiatives enable us to offer market-competitive programs while maintaining the flexibility to develop customized solutions specific to our individual contractor's needs in every marketplace we serve. Our strength has been and will always be in our relationships, which is precisely why we partnered with Vinyl Kraft Windows and Doors to build the RBS Pro.

RICHARDS-SUPPLY.COM

RBS PRO WINDOWS

Vinyl Kraft Windows and Doors has built a reputation for delivering exceptional quality and lasting value since 1994. Each window is custom-crafted with precision, using premium materials engineered for durability, energy efficiency, and timeless style. Strong warranty protection reinforces every product, ensuring long-term performance and customer confidence. With a focus on innovation, craftsmanship, and dedicated service, Vinyl Kraft continues to set the standard for superior window solutions.

YOUR WAY**

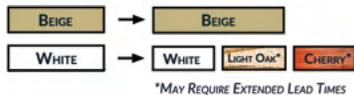

RICHARDS-SUPPLY.COM

STANDARD INTERIOR COLOR OPTIONS

Standard color options for interior windows include white and beige. For those seeking a more natural look, optional wood grain finishes are available in light oak and cherry.

CUSTOM EXTERIOR COLORS

Standard exterior colors are white, beige. Optional color choices include ten standard colors in a semi-gloss finish.

In addition to the ten custom colors, we can custom mix a color to your specifications. All you need to do is send us a sample of the color you would like. In all cases the finish is extremely UV resistant and comes with a twenty year warranty.

Mix and Match

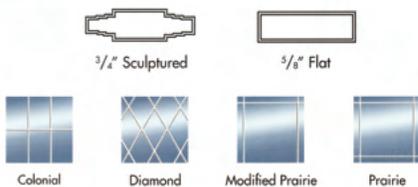

Wood grain is available with all standard and custom colors which may require extended lead times. Colors are only representative of the actual vinyl colors and painted colors. For a more exact match refer to actual vinyl and color chip samples.

GRILLE PATTERNS AND OPTIONS

The grilles, which remain free of dust, are positioned within the space separating the window panes.

Available in a selection of seven distinct colors and two styles—sculptured, and flat—these grilles offer versatility and aesthetic appeal.

The Roto DuoTilt is an integrated locking system for vinyl hung windows that combines locking, unlatching, and tilting functions into one easy-to-use mechanism. Designed for convenience, the tilt latches come pre-assembled for quick installation and seamless connection. Clear visual sash lock indicators show the window's status, while a tactile lever response provides instant feedback when the lock position changes.

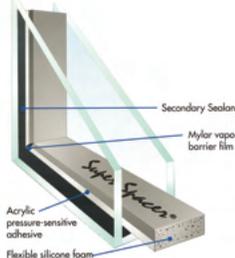

Optional foam insulated window frames give your home an extra layer of comfort and efficiency. By reducing drafts and helping maintain a steady indoor temperature, they can lower energy bills while making your spaces feel cozier year-round. The added insulation also strengthens the frame without changing the look of your windows, so you get lasting durability along with everyday comfort, bringing long-term value, savings, and peace of mind.

RBS Pro Performance Values

REGION	GLASS PANE	GLASS TYPE	GAS FILL	U VALUES	SHGC	VT	CR
RBS PRO DH	2	E270-CLR	AR	0.29	0.28	0.54	57

NORTH CENTRAL ENERGY STAR	2	E270-89	AR	0.25	0.28	0.52	47
SOUTH CENTRAL ENERGY STAR *	2	E366-CLR	AR	0.27	0.21	0.50	58
SOUTHERN ENERGY STAR	2	E366-CLR	AR	0.28	0.21	0.50	58

*With Foam Fill

Our windows start with premium virgin vinyl and uPVC, featuring a welded frame and sash construction.

To ensure durability and integrity, steel reinforcements are integrated into the sash meeting rails to prevent any bowing.

We've engineered a dual interlocking meeting rail system to eliminate air infiltration where the sashes meet.

Our windows feature optional foam filled frames for better insulation and energy efficiency, along with Duo-Tilt locks for secure operation and easy cleaning from inside your home. C Core Reinforcement Standard with Duo Tilt Locks

With both dual and triple pane glass options, you have the flexibility to choose between two low-E glass variants and two gas fill options.

DOUBLE PANE FEATURES

- uPVC All Welded Construction
- Dual Vent Stops
- Block and Tackle Balances
- Recessed Tilt Latches
- Pre-Insulated Foam Frame Wrap (Optional)
- Foam Filled Frame and Sash (optional)
- Multi-Layer Weather Stripping
- Double Wall Interior Leg
- 7/8" Glass Glazed Outside
- Dual Interlocking Meeting Rail
- Steel Reinforcements
- Sloped Sill

The RBS Pro has a multi-cavity main frame for maximum thermal resistance and strength.

You can choose to add an exterior foam wrap to eliminate air infiltration from the space between the outside of the window and your window opening.

TRIPLE PANE FEATURES

- uPVC Multi-Cavity All Welded Construction
- 7/8" Insulated Glass
- Block and Tackle Balances
- Tilt-In Sash
- Heavy Duty Adjustable Keeper(s)
- Forced Entry Approved Vent Latches
- Foam Filled Frame and Sash (optional)
- Obscure and Rain Glass (optional)
- Argon Gas Fill Standard with LowE
- Recessed Tilt Latches
- Triple Pane Glass with Double Super Spacer® Glass Technology (optional)

CUSTOM DESIGNED FOR YOUR VISION

We know you take pride in your home and want it to be the most energy efficient and attractive house on the block. We too, take great pride in every window and door we make. Each window and door is custom made to fit your specific window opening. We use all virgin vinyl and the entire window is welded to make it one of the strongest vinyl windows you can buy.

Each window and door is crafted using "Super Spacer," the most effective glass seal in the window construction industry. This advanced technology ensures that gases between the glass panes are retained, minimizing noise infiltration and condensation. Enjoy superior energy efficiency at no extra cost, unlike with most other dealers who charge additional fees for Super Spacer.

Moreover, the RBS Pro offers nearly limitless options. You'll have the flexibility to select from various window styles, glass packages, grilles, colors, and wood grains, all under one brand.

We take immense pride in the craftsmanship of every window we produce, and we're confident you'll love your new RBS Pro Windows.

RBS Pro Size Limitations

	Double Hung	2 Section Slider	3 Section Slider	Picture/One Lite
Min. Width	14 3/4"	22 1/4"	48"	9"
Min. Height	22 1/4"	14 1/2"	24"	8"
Max. Width	52"	79"	120"	70"
Max. Height	84"	62"	62"	75"

SCREEN OPTIONS

Full Flex Screens are standard or optional for 1/2" aluminum. Unlike the old screens of the past, our new screens are made of a fiberglass cloth.

Available window glass options include impact-resistant or tempered glass for improved safety and long-lasting performance, as well as triple-pane glass designed to enhance energy efficiency, comfort, and noise reduction.

Obscure and rain glass options are also available to provide added privacy and texture without compromising natural light.
